3. [Add a GO1 activity into a Moodle course \(for Course Creators\).....Page 16](#)
4. [How will a student interact with the GO1 course inside Moodle.....Page 29](#)

# Plugin Installation

To add GO1 courses into your Moodle courses using the GO1 plugin, you will need to first install the GO1 Moodle plugin.

The plugin is available for download via the Moodle Plugins Directory (<https://moodle.org/plugins> - add final link here)

If you are unsure of how to install plugins onto your LMS please click on the link below for instructions on how to install a plugin onto your LMS.

[https://docs.moodle.org/36/en/Installing\\_plugins](https://docs.moodle.org/36/en/Installing_plugins)

If you are a Partner, add your Partner ID to the plugin at Installation to track implementations that come from your Partnership:

The screenshot shows the configuration interface for the GO1 Moodle plugin. It is divided into several sections:

- GO1**: A header section.
- Retrive GO1 Credentials**: A button to retrieve credentials.
- Client ID**: A text input field labeled "mod\_gooke | client\_id" with a placeholder "Default: Empty".
- GO1 Oauth Client ID**: A text input field.
- Client Secret**: A text input field labeled "mod\_gooke | client\_secret" with a placeholder "Default: Empty".
- GO1 Oauth Client Secret**: A text input field.
- Content Settings**: A section for managing content browser filters.
- GO1 content browser filter**: A dropdown menu set to "Show Premium Subscription (51,715)" with a placeholder "Default: Show Everything (135,822)".
  - Select GO1 content browser filter**: A sub-section with three options:
    - Show Everything**: Show the entire GO1 Marketplace in the content browser when adding an activity.
    - Show Premium Subscription**: Show only your Premium Subscription content when adding an activity.
    - Restrict to Custom Selection**: To restrict settings further to a pre-curated list you must login to GO1 and save a selection first.
- GO1 Partner Settings**: A section for managing partner settings.
- Partner ID**: A text input field labeled "mod\_gooke | partner\_id" with a placeholder "Default: Empty". This field is highlighted with an orange border.
- For use by GO1 Partners only.**: A note indicating the purpose of the Partner ID field.
- Save changes**: A blue button to save the changes.

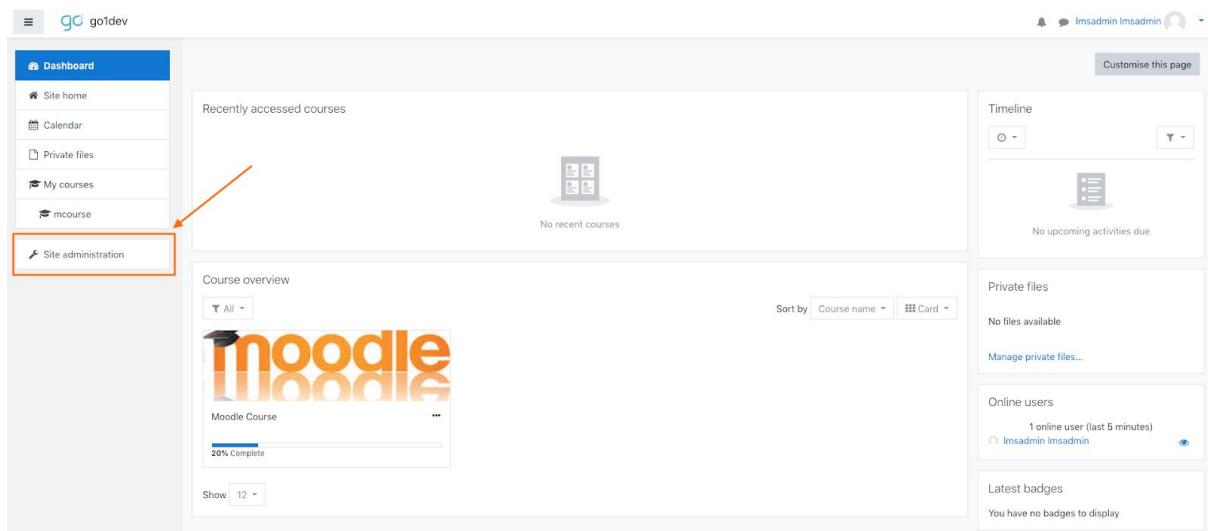

Once the GO1 Moodle plugin has been installed, you can proceed to the next step, plugin configuration (including retrieving credentials etc).

# Plugin Configuration

Before being able to utilise the GO1 activity module within your Moodle Courses you will need to configure the plugin and authenticate using your GO1 account credentials.

Follow the below instructions to configure that plugin via the GO1 plugin settings. If you have an existing account, login using your credentials. If you are new to GO1, sign up.

**Step 1.** Login to your Moodle LMS as a site administrator and select **Site Administration**.

**Step 2.** Select **Plugins tab**.

- Show Premium Subscription Show only your Premium Subscription content when adding an activity.
- Restrict to Custom Selection To restrict settings further to a pre-curated list you must login to GO1 and save a selection first.

Save changes

You will then be directed to the following page (this will open in a new window or browser tab).

## Log in to GO1 and authorize Moodle to use your account

Email \*

Password \*

Log in and connect to Moodle

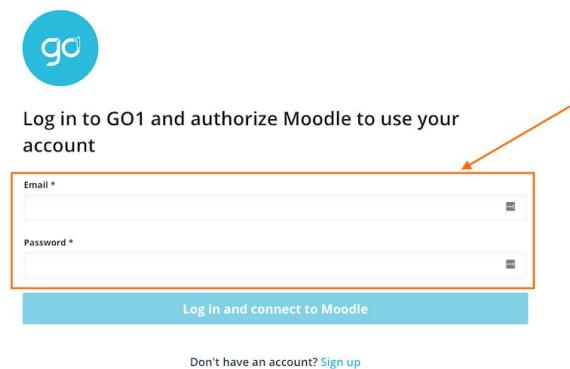

Don't have an account? [Sign up](#)

If you have existing credentials, continue onto the ***Retrieve Existing Credentials*** instructions. If you need to sign up for an account, please skip to the **Sign Up For GO1 Account** instructions (on Page 9).

## Retrieve Existing Credentials

Follow this section if you have an existing GO1 account. If you are new to GO1, please skip to the section below detailing how to sign up for a new account.

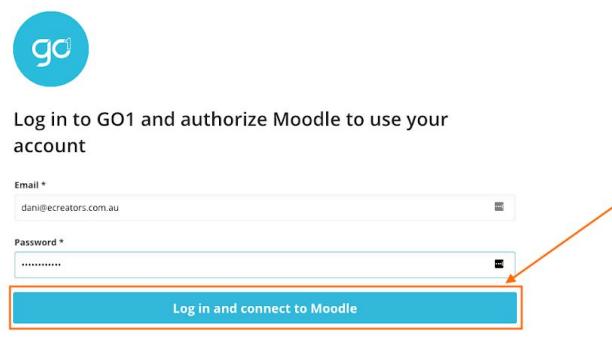

Step 6. Enter your email address and password

The image shows the GO1 login interface. At the top is a blue circular logo with the letters 'go'. Below it is a heading: 'Log in to GO1 and authorize Moodle to use your account'. Below the heading are two input fields: 'Email \*' containing 'dani@e创作者.com.au' and 'Password \*' containing '\*\*\*\*\*'. Both fields have small square icons with arrows in them to their right. At the bottom is a blue button labeled 'Log in and connect to Moodle'.

Don't have an account? [Sign up](#)

Step 7. Select **Log In and connect to Moodle** button

The image shows the GO1 login interface again. The 'Email \*' field contains 'dani@e创作者.com.au' and the 'Password \*' field contains '\*\*\*\*\*'. An orange arrow points from the left towards the 'Log in and connect to Moodle' button at the bottom, which is highlighted with an orange border. Below the button is the text 'Don't have an account? [Sign up](#)'.

Step 8. Authorize access, select **Authorize Moodle Button**

---

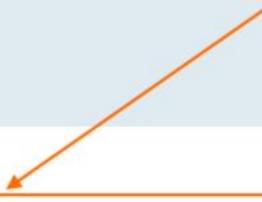

Allow Moodle ([go1.dev.ecreators.io](https://go1.dev.ecreators.io)) to access eCreators?

AUTHORIZE ACCESS TO:

- Read account information.
- Access learning objects data, like courses and collections.
- Modify learning objects.
- Read portal configuration.
- Modify portal configuration.

**Authorize Moodle**

Step 9. You will now be given **credentials** to input into your Moodle platform.

## Credentials

Client ID	<input type="button" value="Copy"/>
435ec9bd0b38	
Client secret	<input type="button" value="Copy"/>
3baac28e670b	

Step 10. Follow the *Input Credentials instructions* on Page 13.

### Sign Up For GO1 Account

If you don't currently have a GO1 account you will need to sign up for an account to be able to utilise the GO1 activity module and add courses to your Moodle Course from GO1.

Step 6. Select **Sign Up** link

## Log in to GO1 and authorize Moodle to use your account

Email \*

Step 9. Select **Authorize Moodle** button.

---

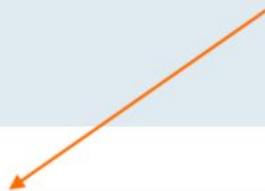

Allow Moodle ([go1.dev.ecreators.io](https://go1.dev.ecreators.io)) to access eCreators?

AUTHORIZE ACCESS TO:

- Read account information.
- Access learning objects data, like courses and collections.
- Modify learning objects.
- Read portal configuration.
- Modify portal configuration.

**Authorize Moodle**

Step 10. You have now been provided with credentials.

Follow the *Input Credentials* instructions to add these to your Moodle Platform

## Credentials

Client ID	<input type="text" value="435ec9bd0b38"/>	<button type="button">Copy</button>
Client secret	<input type="text" value="3baac28e670b"/>	<button type="button">Copy</button>

Step 11. Follow the input credentials instructions on Page 13.

### Input Credentials

Once you have logged into your Account or Signed Up for a new account, you can input the Moodle credentials into your Moodle platform.

Step 12. Copy and paste the Client ID and Client Secret and place these tokens into the Client ID and Client secret text fields of GO1 plugin setting.

The screenshot shows the 'GO1' plugin settings in Moodle. At the top, there is a 'Retrieve GO1 Credentials' button. Below it, two fields are shown: 'Client ID' (mod\_gone | client\_id) containing '64b7263f7c3' and 'Client Secret' (mod\_gone | client\_secret) containing '4593af3ad3f'. Both fields have a note 'Default: Empty' next to them. Orange arrows point from the text 'Client ID' and 'Client Secret' in the previous step description to these respective fields. At the bottom of the screen, there is a 'Content Settings' section for 'GO1 content browser filter' (mod\_gone | filtersel), which includes a dropdown menu set to 'Show Premium Subscription (50,077)' with a note 'Default: Show Everything (60,388)', a 'Select GO1 content browser filter' dropdown, and a list of options: 'Show Everything', 'Show Premium Subscription', and 'Restrict to Custom Selection'. A 'Save changes' button is at the bottom.

Step 13. From the **content settings**, select the content that you'd like to make available for Teachers and Course Creators to be able to select from when using the GO1 activity module within their courses.

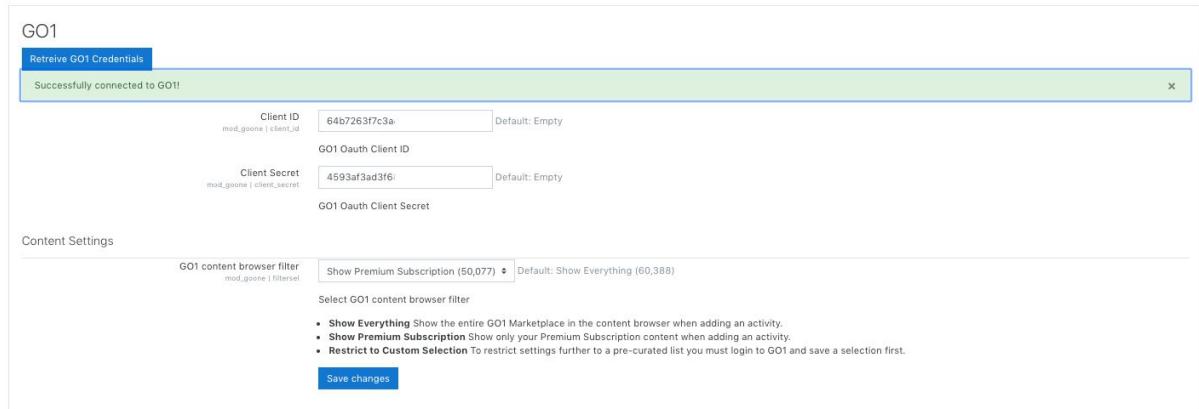

You can select from:

Content Setting	
Show everything	Show the entire GO1 Marketplace in the content browser when adding an activity. This overrides other settings.
Show premium subscription	Show only your Premium subscription content when adding an activity. This is the recommended setting.
Restrict to Custom Selection	To restrict settings to a pre-curated list you must login to GO1 and save a selection first. This overrides the other settings.

#### Step 14. Select **Save Changes**.

The screenshot shows the Moodle GO1 plugin configuration page. At the top, there is a 'Retrive GO1 Credentials' button. Below it, there are fields for 'Client ID' (64b7263f7c3a) and 'Client Secret' (4593af3ad3f6), both with a 'Default: Empty' note. Under 'Content Settings', there is a dropdown menu for 'GO1 content browser filter' set to 'Show Premium Subscription (50,077)' with a note 'Default: Show Everything (60,388)'. Below the dropdown, there is a list of options: 'Show Everything' (Show the entire GO1 Marketplace in the content browser when adding an activity), 'Show Premium Subscription' (Show only your Premium Subscription content when adding an activity), and 'Restrict to Custom Selection' (To restrict settings further to a pre-curated list you must login to GO1 and save a selection first). A large orange arrow points from the 'Content Settings' section down to the 'Save changes' button at the bottom of the form.

Your GO1 has now been connected and the GO1 activity module can now be utilised within Moodle Courses by Teachers and Course creators.

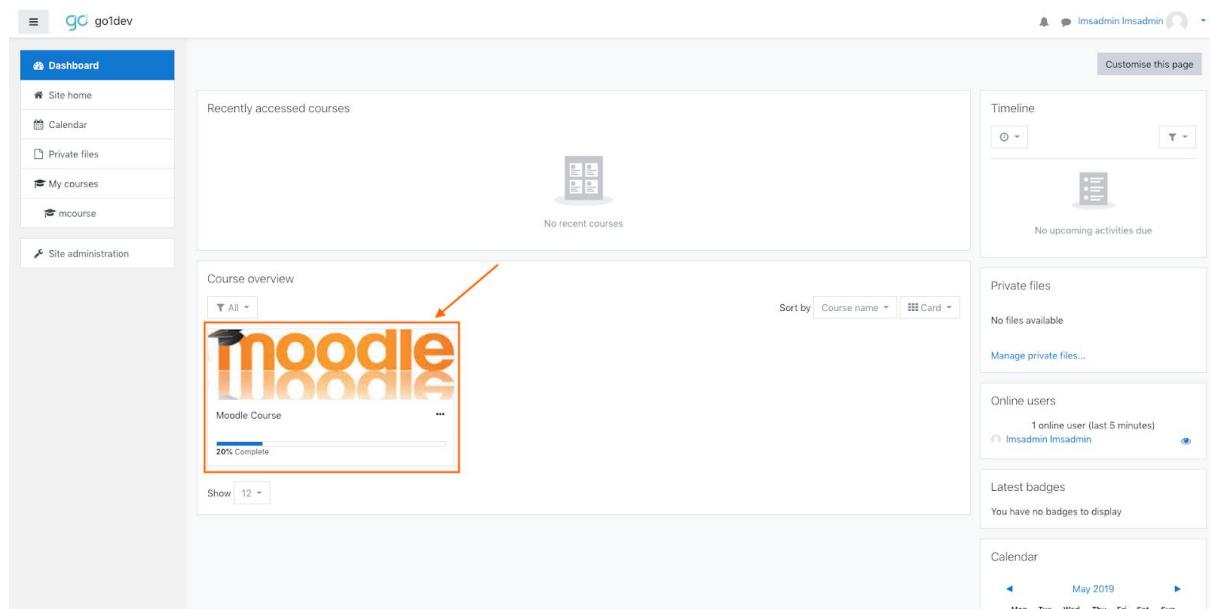

Once GO1 is successfully connected to your Moodle. Follow the [Add a GO1 activity into a Moodle course](#) instructions to start utilising GO1 content within Moodle.

# Add a GO1 activity into a Moodle course

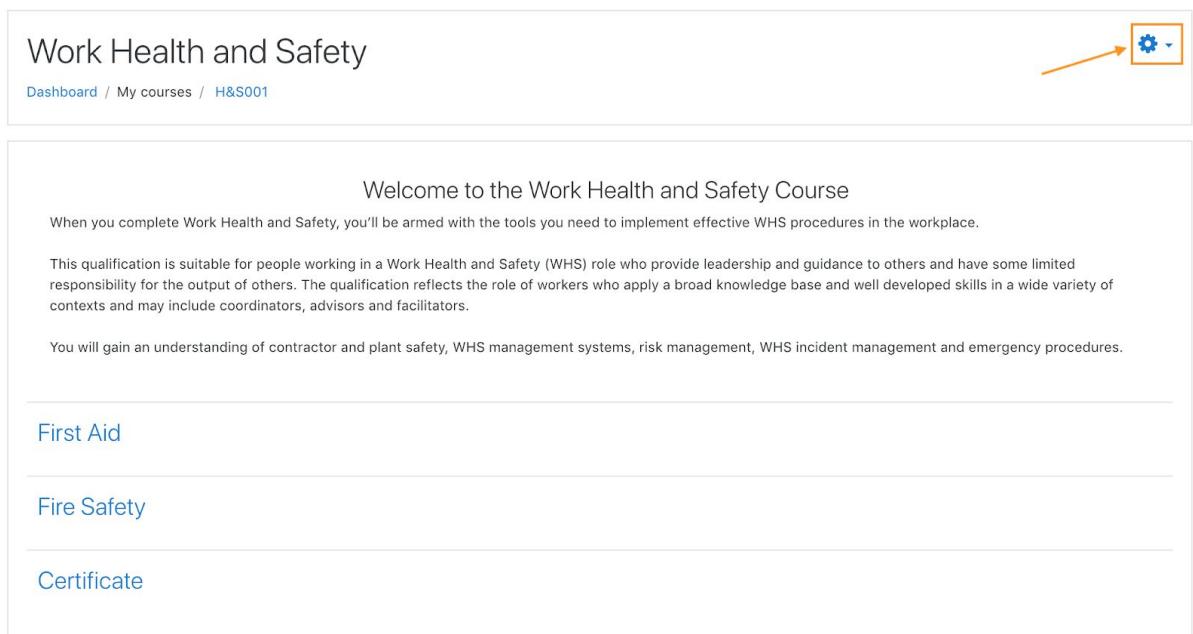

Once a site administrator has authorised Moodle with valid GO1 credentials, teachers and course creators will be able to add GO1 course content to their Moodle courses.

Step 1. Enter Moodle Course that you'd like to add a GO1 activity to.

The screenshot shows the Moodle dashboard with the URL 'go1dev' in the address bar. On the left, there's a sidebar with links: Site home, Calendar, Private files, My courses, mcourse (which is highlighted), and Site administration. The main area shows 'Recently accessed courses' with a placeholder 'No recent courses'. Below that is the 'Course overview' for 'mcourse', which includes the Moodle logo, course name, completion status (20% Complete), and a '...' button. An orange arrow points to the 'mcourse' thumbnail. To the right, there are sections for Timeline, Private files, Online users, Latest badges, and a calendar for May 2019.

Step 2. Select **Course Administration** (COG Icon)

The screenshot shows the 'Work Health and Safety' course page. At the top, it says 'Work Health and Safety' and shows the breadcrumb 'Dashboard / My courses / H&S001'. In the top right corner, there's a 'COG' icon (Course Administration) with an orange arrow pointing to it. The main content area has a heading 'Welcome to the Work Health and Safety Course' and a paragraph about the qualification being suitable for people working in a WHS role. It also mentions that users will gain an understanding of contractor and plant safety, WHS management systems, risk management, WHS incident management and emergency procedures. Below this, there are three course modules: 'First Aid', 'Fire Safety', and 'Certificate'.

### Step 3. Select Turn Editing On

Work Health and Safety

Welcome to the Work Health and Safety Course

When you complete Work Health and Safety, you'll be armed with the tools you need to implement effective WHS procedures in the workplace.

This qualification is suitable for people working in a Work Health and Safety (WHS) role who provide leadership and guidance to others and have some limited responsibility for the output of others. The qualification reflects the role of workers who apply a broad knowledge base and well developed skills in a wide variety of contexts and may include coordinators, advisors and facilitators.

You will gain an understanding of contractor and plant safety, WHS management systems, risk management, WHS incident management and emergency procedures.

First Aid

Fire Safety

Certificate

### Step 4. Select add an activity or resource link within the topic that you'd like to add a GO1 activity

**Overview**

**Course Description**

In this course, we cover all the major topics for adult first aid, and child and infant first aid. We also look at life saving first aid techniques, like the primary survey for assessing casualties, and look at the role of a first aider.

Nine modules in size, this course also covers topics including how to deal with epilepsy and seizures, asthma and allergies and bleeding and burns.

Like all our courses, this online first aid course has been independently accredited as conforming to Continuing Professional Development (CPD) guidelines.

Containing additional resource materials, useful links and up-to-date refresher guides, this first aid course will give you the confidence to help out in a first aid situation and to administer help when required. You can even try a demo to ensure the course meets your requirements.

### Current Window -

Current Window is the recommended display setting because it will help avoid additional pop-ups where necessary. Not all training providers support their content being played in the current window. If the current window is not supported, the system will automatically play the content in a popup.

## New Window -

A new window might be necessary for some providers, or in the case where there are multiple pieces of content in a course that will open in a new window, it can also be selected for consistency

Step 13. Continue setting up your course common settings (common module settings, restrict access, tags, competencies) as required.

Updating GO1 Course in First Aid

## Step 13. Setup **Activity Completion** Settings

The GO1 has four activity completion conditions that can be chosen from. A description of each has been listed below.

- **Do not indicate activity completion** - completion for this activity will not be tracked. No activity completion box will appear on the Moodle course page for this activity.

**Activity completion**

Completion tracking	?	Do not indicate activity completion	?				
Require view		<input type="checkbox"/> Student must view this activity to complete it					
		<input checked="" type="checkbox"/> Student must finish the Learning Object to complete it					
Expect completed on	?	25	July	2019	17	28	Enable

- **Students must manually mark the activity as completed** - If the user marks the course as completed from within the learning object manually, the activity completion checkbox on the course page will also be marked as completed.

Please note, if a user ticks the activity completion box on the moodle course page, this won't update activity completion within the learning content.

**Activity completion**

Completion tracking	?	Students can manually mark the activity as completed	?				
Require view		<input type="checkbox"/> Student must view this activity to complete it					
		<input checked="" type="checkbox"/> Student must finish the Learning Object to complete it					
Expect completed on	?	25	July	2019	17	28	Enable

- **Students must view this activity to complete it** - The GO1 activity will be marked as completed when the user enters the GO1 activity.

**Activity completion**

Completion options unlocked

When you save changes, completion state for all students will be erased. If you change your mind about this, do not save the form.

Completion tracking	?	Show activity as complete when conditions are met	?
Require view		<input checked="" type="checkbox"/> Student must view this activity to complete it	
		<input type="checkbox"/> Student must finish the Learning Object to complete it	

- **Students must finish the Learning Object to complete it** - When the GO1 Learning object is marked as completed, the GO1 activity within Moodle will also be marked as completed. This means that the user has completed all of the modules/sections/video content contained within the GO1 course.

# How will a student interact with the GO1 course inside Moodle

A student will interact with the GO1 course through Moodle. The student will go through the following steps to access the course.

## Step 1. Enter the course

The screenshot shows the Moodle course overview page. It displays four courses in a grid:

- Food Safety: 20% Complete
- GO1: 33% Complete
- Moodle Course: 14% Complete
- Work Health and Safety: 0% Complete

An orange arrow points from the 'Work Health and Safety' card towards the 'Work Health and Safety' course page below.

## Step 2. Click on the GO1 activity that you'd like to launch.

The screenshot shows the 'Work Health and Safety' course page. It includes the following sections:

- Course title: Work Health and Safety
- Breadcrumbs: Dashboard / My courses / H&S001
- Welcome message: Welcome to the Work Health and Safety Course
- Description: When you complete Work Health and Safety, you'll be armed with the tools you need to implement effective WHS procedures in the workplace.
- Text: This qualification is suitable for people working in a Work Health and Safety (WHS) role who provide leadership and guidance to others and have some limited responsibility for the output of others. The qualification reflects the role of workers who apply a broad knowledge base and well developed skills in a wide variety of contexts and may include coordinators, advisors and facilitators.
- Description: You will gain an understanding of contractor and plant safety, WHS management systems, risk management, WHS incident management and emergency procedures.
- Activities:
  - First Aid (with a sub-link to 'First Aid Training')
  - Fire Safety (with a sub-link to 'Fire Safety Training')

## Step 3. The course will now open for the student to complete. The user can now commence the course.

If a user selects the [X] button, they will be navigated to the course description if applicable the table of contents within the Learning Object. If the Learning Object contains multiple modules, the user will need to use the [X] button to return to the course description and table to contents page to start a new module and navigate between modules.

This will not close the GO1 activity and navigate them back to the Moodle course course page.

An example of a course that contains only one module -

The screenshot shows a course overview page. At the top, there is a breadcrumb navigation: Dashboard / My courses / H85001 / First Aid / First Aid Training. On the right, there is an 'Exit activity' button. Below the breadcrumb is a large image of two people laughing. The title 'First Aid' is centered below the image. A detailed course description follows, including sections for Course Description, Learning Objectives, and Course Duration (120 minutes). A large 'Launch' button is located at the bottom of the description area.

An example of a course that contains multiple modules - you can click on the next item in the course from the Overview Page:

The screenshot shows a course overview page for 'Using the NCC'. The title is 'Using the NCC' and it is categorized under 'COURSE'. It is offered by 'Australian Building Codes Board' and has a duration of '0 1 hr'. Below the title, there are tabs for 'Overview', 'My Progress' (which is selected), and 'Discussion/Notes'. The main content area shows a progress bar with '2 not started' items. An orange arrow points to a box labeled 'Course Content' which lists 'Using the NCC' and 'Take the Quiz' with 'Open' buttons. A trophy icon is positioned above the progress bar.

Step 4. To exit the Learning Object, select the **Exit Activity** button in the top right hand corner.

## Recognizing On-the-Job Substance Abuse in a Construction Environment

### Recognizing On-the-Job Substance Abuse in a Construction Environment

MARCOM's MicroLearning program on "Dealing with Drug and Alcohol Abuse for Managers and Supervisors in Construction Environments: Recognizing On-the-Job Substance Abuse" provides employees with specific facts about this topic. These targeted 2-4 minute video "info-nuggets" focus on a single skill or topic area that employees need to understand to work safely.

Review

Activity Completion in Moodle will be awarded based on the activity completion settings that were configured by the administrator in [Add a GO1 activity into a Moodle course, step 13](#) for this activity type.
